1

Download & Install Smart Shades
app from these links below

Available on the **App Store**

GET IT ON **Google Play**

Alternatively, search for "Smart Shades" in
Apple App Store or Google Play.

2

Launch Smart Shades app to begin the
activation and setup process

Make sure your phone
Bluetooth is switched on

Smart Shades Activation & Setup

To activate Smart Shades, plug in the USB cable with a power supply. You can remove the cable after activation.

Open Smart Shades app and hold your smartphone next to an activated Smart Shades. Wait until your device discovers Smart Shades.

Follow the on-screen instructions and move your shades to their middle position.

Remove the front cover.

Use up or down arrows in the mobile app to feed the chain to the gear. After the chain is connected, press stop. Use up and down arrows to distribute the chain equally to each side.

Use a cloth to clean the surface, make sure the surface is dry before installing the Smart Shades.

Attach the Smart Shades to the wall. Use the tape on the back of the device or screws (not included). Make sure that the chain is not crossed ot too loose/tight. See the following images.

Incorrect Placement

Correct Placement

Follow the on-screen instructions and complete the set-up.

Move Your Shades to Their Lowest Position

Use the up/down arrows to set the lowest position for your shades.

The orange arrows can be used to move your shades for a longer distance, the blue arrows can be used to fine-tune the position by moving in shorter steps.

Solar Panel Installation

⚠ IMPORTANT

The solar panel must always be installed indoors, directly against the glass to allow as much natural light as possible to reach the panel.
Make sure that all the solar cells are exposed to daylight.

Remove the protective film from the solar panel. Also, remove the protective film from the adhesive strip on the front of the panel.

Position the bezel with solar panel facing outdoors, then press it firmly against the glass for 5 seconds.

Firmly insert the charging plug into the socket. When inserted correctly, the plug has to make a clicking sound when pushed into the socket.

Simple. Smart. Intelligent.

Device not activating

- We ship out devices with up to 15% charge due to IATA policy regarding lithium batteries.

- Please charge the battery using the USB cable provided in the pack and a regular phone charger.

- Make sure the charging plug is completely pushed into the device.

- Try turning the Bluetooth off and on again.

How do I remove the wheel from the device?

Remove the screw

Carefully pry the gear wheel off using a flat-head screwdriver or another similar tool.

I have a cord with a chain connector and it's blocking the chain's movement through the Smart Shades.

- Depending on the length and the type of the chain, it is possible to bypass the connector.

- Please contact support at support@somasmarthome.com for further assistance

- Alternatively, the chain can be replaced with an endless loop chain included in the box.

To avoid damaging the product read the instructions before using:

1 Never immerse the device or solar panel into any liquid.

2 Never drill holes into the device.

3 Do not drop the device or the solar panel.

4 Never pierce the solar panel or its bezel frame.

5 Never put anything onto the solar panel (risk of scratching or breakage), especially during installation.

6 Once installed, never subject the wire harness or other components to strain, pinching, or cutting caused by moving objects.

7 Do not eat the product or the solar panel.

8 THIS PRODUCT IS NOT A TOY. KEEP AWAY FROM CHILDREN. IT IS NOT SUITABLE FOR CHILDREN UNDER THE AGE OF 5, AS SMALL PARTS AND/OR BROKEN PARTS MAY PRESENT A CHOKING HAZARD. IF SWALLOWED, SEEK IMMEDIATE MEDICAL HELP.
